Subject: Delivery Driver Issue

LSJ,

This morning at approximately 709 am I noticed a suspicious vehicle stopped in the roadway in front of my residence, ([REDACTED]). I asked the driver if he was lost. He responded, "I'm just me doing me." I promptly called 911 for the suspicious activity and followed the vehicle. We have had recent stolen vehicles and larceny from automobiles in our neighborhood. The driver fit the description of the accused. While following the vehicle it attempted to ram my vehicle several times. (Side note- I am a police officer and am trained in suspicious activity and felonious assault.). I drew my weapon and Identified myself as a police officer and told him to stop. The driver drove to a gas station at Airport Rd near Clark Rd. The driver started driving recklessly around the parking lot until PD arrived. The driver smelled of marijuana and was uncooperative with PD. The driver identified himself as an LSJ delivery driver, something he should have told me at first contact. I have decided to not press charges on felonious assault but I would like if he were put on a separate route for my safety and the safety if my family.

Thank You,
Chad Vorce
Dewitt City PD
